Use of Indigenous Herbs and Traditional Formulations through BFC in treatment of Type II Diabetes and associated diseases with the help of ST-82.

Pankaj Oudhia

Introductory Note

In Traditional Healing, Indigenous Herbs and Traditional Formulations play vital role. The Traditional Healers of Indian state Chhattisgarh use it through BFC method in treatment of Type

II Diabetes and associated diseases with the help of Special Treatment 82. They use it in form of 52 weeks schedule in four sets. I have documented this Traditional medicinal knowledge and added it in Type II Diabetes report in Ecoport.

Recent Ethnobotanical surveys resulted in new information and based on it I prepared modified schedules by adding new herbs and herbal combinations. The basic as well as modified schedules are present in CGBD database. The efforts are in progress to make CGBD database online. The present documents show basic and modified schedule no.1.
